

guidance section coupled to an inert missile bus. The M36E9 CATM does not have a functional rocket motor or warhead, and cannot be launched. The missile has an operational semi-active laser seeker that can search for and lock-on to laser-designated targets. It functions like a tactical missile (without launch capability) during captive carry on the aircraft, making it suitable for training the aircrew in simulated Hellfire missile target acquisition and lock. The missile comes in a reusable aluminum container designed to protect the missile from shock, vibration, and other environmental conditions encountered during shipment, handling, and storage. The highest level for release of the CATM is SECRET, based upon the software. The highest level of classified information that could be disclosed by a proposed sale or by testing of the end item is SECRET; the highest level that must be disclosed for production, maintenance, or training is CONFIDENTIAL. Reverse engineering could reveal confidential information. Vulnerability data, countermeasures, vulnerability/susceptibility analyses, and threat definitions are classified SECRET or CONFIDENTIAL.

f. The Embedded Global Positioning System/Inertial Navigation System plus Multi Mode Receiver (EGI+MMR). The aircraft has two EGIs which use internal accelerometers, rate gyro measurements, and external sensor measurements to estimate the aircraft state, provides aircraft flight and position data to aircraft systems. The EGI is a velocity-aided, strap down, ring laser gyro based inertial unit. The EGI unit houses a GPS receiver. The receiver is capable of operating in either non-encrypted or encrypted. When keyed, the GPS receiver will automatically use anti-spoof/jam capabilities when they are in use. The EGI will retain the key through power on/off/on cycles. Because of safeguards built into the EGI, it is not considered classified when keyed. Integrated within the EGI is an Inertial Measurement Unit (IMU) for processing functions. Each EGI also houses a Multi-Mode Receiver (MMR). The MMR is incorporated to provide for reception of ground based NAVAID signals for instrument aided flight. Provides IMC I IFR integration and certification of improved Embedded Global Positioning System and Inertial (EGI) unit, with attached MMR, with specific cockpit instrumentation allows Apaches to operate within the worldwide IFR route structure. Also includes integration of the Common Army Aviation Map (CAAM), Area Navigation (RNAV), Digital Aeronautical Flight Information File (DAFIF) and Global Air Traffic Management (GATM) compliance.

g. The AAR-57 Common Missile Warning System (CMWS) detects energy emitted by threat missiles in-flight, evaluates potential false alarm emitters in the environment, declares validity of threat and selects appropriate countermeasures. The CMWS consists of an Electronic Control Unit (ECU), Electro-Optic Missile Sensors (EOMSs), and Sequencer and Improved Countermeasures Dispenser (ICMD). The ECU hardware is classified CONFIDENTIAL; releasable technical manuals for operation and maintenance are classified SECRET.

h. The AN/APR-39 Radar Signal Detecting Set is a system that provides warnings of radar-directed air defense threats and allows appropriate countermeasures. This is the 1553 databus compatible configuration. The hardware is classified CONFIDENTIAL when programmed with threat data; releasable technical manuals for operation and maintenance are classified CONFIDENTIAL; releasable technical data (technical performance) is classified SECRET. The system can be programmed with threat data provided by the purchasing country.

i. The Stinger RMP Block I Missile, hardware, embedded software object code and op-

erating documentation contain sensitive technology and are classified CONFIDENTIAL. The highest classification of the Stinger 92H Reprogrammable Micro-Processor (RMP) Block I missile hardware is CONFIDENTIAL, and the highest classification of data and information is SECRET. The guidance section of the missile and tracking head trainer contain highly sensitive technology and are classified CONFIDENTIAL. Missile System hardware components contain sensitive critical technologies. Stinger Block I critical technology is primarily in the area of design and production know-how and not end-items. Information on countermeasures vulnerability to electronic countermeasures, system performance capabilities and effectiveness, simulation and test data and software source code are classified up to SECRET.

2. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

3. A determination has been made that Morocco can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

4. All defense articles and services listed in this transmittal are authorized for release and export to the Government of Morocco.

REMEMBERING GERT BOYLE

Mr. WYDEN. Mr. President, I rise today to remember the remarkable life of my friend Gert Boyle and her many economic and philanthropic contributions to Oregon.

Gert died earlier this month at the age of 95. I am one of the many fans of Columbia Sportswear—and there are an awful lot of us in Oregon—who admired Gert and saw her as synonymous with the iconic Oregon company she led. This force of nature came to Oregon after fleeing Nazi Germany with her family in 1937. It is an immigrant story she shared with my parents, who also fled the Nazis. Like so many other refugees welcomed to America over the centuries, Gert arrived to America ready to work and eager to contribute. She did both in spades, adding her own significant chapter to America's proud history of immigrant successes.

She was a pioneer, a woman running a company at a time when that was unfortunately even more rare than women CEOs are today. When Gert's husband Neal died unexpectedly in 1970, she stepped in to replace him as president of what was then a tiny local company weighed down by debt. The challenge was mighty, but so was Gert. She became identified everywhere with Columbia Sportswear as she grew this Oregon business into a national and international brand. It now generates net annual revenue of \$3 billion and employs more than 6,500 people. Business school students and Oregon historians alike will always remember Gert for that exceptional run, as will I. And

she gave back along the way, generously supporting Special Olympics and the Knight Cancer Institute at Oregon Health and Science University in Portland. She was also was a hell of a lot of fun, as evidenced by her hilarious role spoofing herself in a 1980s Columbia Sportswear ad campaign as "one tough mother."

I close by citing two anecdotes about Gert among many in the recent obituaries chronicling her amazing life. I think both capture her toughness and sense of humor perfectly. One of the two anecdotes comes from Kerry Tymchuk, executive director of the Oregon Historical Society. He said, "When she took over, you know, she was a woman CEO in a business where there weren't many women CEOs, in the sports apparel business. She was discriminated against and there was this famous incident where she picked up her phone and the fellow on the other end said, 'I want to speak to the CEO,' and she said 'speaking,' and he said, 'but you're a woman,' and she said, 'you know, I noticed that when I got up this morning.'"

The other anecdote comes from Gert herself. In another obituary, she was quoted as having said, "After my husband died, I said, 'It's the same ballgame—it's just a different coach. I might not know what I'm doing, but we're going to do it my way.'" Gert certainly did do it her way. And her company, its employees, and our entire State of Oregon are much the better for it.

ADDITIONAL STATEMENTS

TRIBUTE TO JAY HILDEBRANDT

● Mr. RISCH. Mr. President, I rise today to recognize the 40-year career of a great Idahoan, Jay Hildebrandt, co-anchor of KIFI Local News 8 in Idaho Falls, ID. Jay has covered the news from KIFI since 1984 and has become a trusted, familiar face to east Idaho residents. Viewers have come to know him as a dedicated professional who gets to the bottom of important stories, while treating all people with dignity and respect.

Motivated by his conviction to share positive stories, Jay leaves behind an inspiring legacy through the uplifting segments he produced over the past four decades. In one such weekly segment titled "Wednesday's Child," Jay introduced children in need of a big brother or sister figure, a foster home or an adoptive family. Jay produced this segment for 28 years, and many children found permanent homes as a result. In recognition of his advocacy, the Congressional Coalition on Adoption Institute honored him and his wife Sally as "Angels in Adoption." In addition to this heartwarming segment, Jay also highlighted hundreds of high-achieving local high school seniors through his "Distinguished Student" weekly report. In 1990, Karole Honas

joined Jay at the anchor desk. Their contrasting perspectives and reporting styles created a compelling synergy that kept viewers watching for over 29 years.

When he isn't reporting the news, Jay is an active volunteer in his community. His service includes participation on the Governor's Children's Trust Fund Board, Region VII Health and Welfare Advisory Board, and the Safe Place Advisory Board. He also serves his community as an adjunct professor in the communications department at Brigham Young University-Idaho, where he passes along his expertise, reporting philosophies and lessons that can only be learned through experience to the next generation of journalists.

I would like to commend Jay for over 40 years of bringing the news to Idahoans and congratulate him on his retirement. He will surely stay busy with his wife Sally, their five grown children, and 15 grandchildren. His many dedicated years on the air have left a record of a kind and gentle individual, demonstrating positivity in words and actions.●

RECOGNIZING LEISURELAND RV CENTER

● Mr. RISCH. Mr. President, as a member and former chairman of the Senate Committee on Small Business and Entrepreneurship, each month I recognize and celebrate the American entrepreneurial spirit by highlighting the success of a small business in my home State of Idaho. However, in honor of Veterans Day on November 11, this month, I will honor a veteran-owned small business for each of the 10 days the Senate is in legislative session. The personal sacrifices made by America's veterans have protected the very freedoms and values that give each of us and our children the ability to achieve the American dream. The skills veterans learn as members of the military are invaluable and undoubtedly contribute to Idaho's flourishing veteran business community. I am proud of the sacrifices veterans have made to protect our country and that they are choosing Idaho to call home when they complete their service in the military.

As your U.S. Senator from the great State of Idaho, it is my pleasure to recognize Leisureland RV Center in Boise as the veteran-owned Idaho Small Business of the Day for November 20, 2019.

Leisureland RV Center is owned and operated by U.S. Air Force veteran John DeHoff and his wife Carina. John DeHoff served in the U.S. Air Force for 25 years, and now, he and his wife travel across the United States hand-selecting preowned recreational vehicles—RVs—to restore and resell at their Boise location. The DeHoffs opened Leisureland RV Center in 2014 to combine their passions for using recreational vehicles and renovating cars.

The company has a 10,000-square-foot maintenance facility on-site where ex-

perienced technicians restore high-end RVs and resell them at market value. In addition to selling refurbished RVs, Leisureland RV Center offers basic RV maintenance services and large-scale RV repairs. Leisureland RV Center's top priority is customer satisfaction. Employees assess the needs of each customer to ensure new buyers select an RV that will fit their lifestyle. This dedication to exceptional customer service is one reason many people travel from across the West to purchase an RV from Leisureland RV Center.

Congratulations to John and Carina DeHoff and all of the employees at Leisureland RV Center for being selected as the veteran-owned Idaho Small Business of the Day for November 20, 2019. You make our great State proud, and I look forward to your continued growth and success.●

TRIBUTE TO GREGORY FERRY

● Ms. HASSAN. Mr. President, I am proud to recognize Captain Gregory Ferry of Hooksett as November's Granite Stater of the Month for his leadership in strengthening the partnership between New Hampshire's law enforcement and the Special Olympics.

Captain Ferry recently retired from the New Hampshire State Police after 25 years of dedicated service to the people of New Hampshire. Known for going the extra mile to support his fellow officers in the line of duty, Captain Ferry led outside of work as well. Throughout his career, even while carrying out the full duties of a New Hampshire State Trooper, Captain Ferry volunteered with the Special Olympics. He has been involved in everything from handing out medals to the athletes to the Law Enforcement Torch Run.

The Law Enforcement Torch Run helps bring awareness to the Special Olympics. Captain Ferry would help his fellow officers run what is called the "Flame for Hope" all across New Hampshire, for a total distance of 550 miles. Since the run's inception 35 years ago, New Hampshire law enforcement has raised more than \$5.5 million for Special Olympics, and for 25 of those 35 years, Captain Ferry was at its helm.

After 17 years of participating in the program, Captain Ferry decided to get even more involved and was chosen as State police liaison to the Special Olympics.

In this role, Captain Ferry oversaw the expansion of law enforcement's partnership with the program, which included recruiting more liaisons, expanding law enforcement's participation in the Summer and Winter Games, and increasing fundraising efforts.

As a symbol of Captain Ferry's strong relationship with the program, he was selected to represent New Hampshire at the 2019 Special Olympics World Games in Abu Dhabi, where he participated in the Torch Run across the United Arab Emirates. This was a once in a lifetime opportunity for Cap-

tain Ferry to represent both New Hampshire law enforcement and the Special Olympics program on the world stage.

Captain Ferry has said that the most rewarding part of his involvement in the Special Olympics has been the special bonds that he has formed with the athletes, which extend beyond the playing field. He continues to keep in touch with some of the athletes on social media and makes sure to give them a hug whenever he sees them outside of the program.

Captain Ferry's daughter, Jillian, also happens to be a Special Olympian. Her favorite event is bowling, and she has beaten dad on a few occasions.

From serving as a public safety officer who went out of his way to support his fellow officers and protect his community, to providing a sense of security for the athletes in the Special Olympics program who have learned to trust him, Captain Ferry has demonstrated what it means to be a dedicated public servant.

Thank you, Captain Ferry, for your service to our great State, and I wish you all the best in your future endeavors.●

MESSAGES FROM THE HOUSE

At 10:02 a.m., a message from the House of Representatives, delivered by Mrs. Cole, one of its reading clerks, announced that the House has passed the following bill, in which it requests the concurrence of the Senate:

H.R. 5084. An act to amend the Securities Exchange Act of 1934 to require the submission by issuers of data relating to diversity and for other purposes.

At 5:50 p.m., a message from the House of Representatives, delivered by Mrs. Cole, one of its reading clerks, announced that the House has passed the following bills, without amendment:

S. 862. An act to extend the sunset for the collateral requirements for Small Business Administration disaster loans.

S. 1838. An act to amend the Hong Kong Policy Act of 1992, and for other purposes.

S. 2710. An act to prohibit the commercial export of covered munitions items to the Hong Kong Police Force.

MEASURES REFERRED

The following bill was read the first and the second times by unanimous consent, and referred as indicated:

H.R. 5084. An act to amend the Securities Exchange Act of 1934 to require the submission by issuers of data relating to diversity and for other purposes; to the Committee on Banking, Housing, and Urban Affairs.

MEASURES READ THE FIRST TIME

The following bill was read the first time:

S. 2920. A bill to reauthorize the Violence Against Women Act of 1994, and for other purposes.
